CELESTIAL CELEBRATION

On Saturday, October 14th, a solar annular eclipse occurred over North and South America. While Orlando, FL was not in the umbra (dark shadow) of the eclipse, we were able to experience a partial solar eclipse! Our media specialist, Ms. India was able to safely capture these photos with her smartphone, solar eclipse viewing glasses, and a little ingenuity! Here's also a picture of the Earth during the eclipse, captured by a satellite!

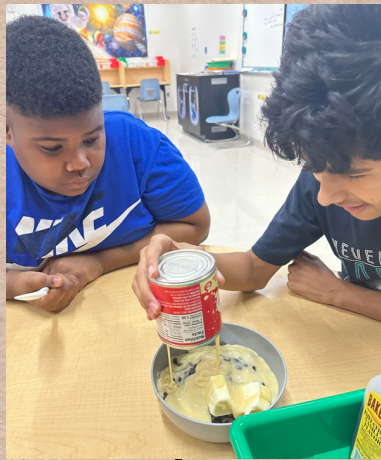

We hope you were able to experience this unique celestial celebration!
