## CATCH THE RESILIENCY WAVE

Congratulations on completing your first full month back at school, Mustangs! We are getting into the rhythm of a new school year, and while we've already accomplished quite a bit, we still have so many new and fun things in store! This month, Mustangs celebrated OCPS' Resiliency Day on Wednesday, Sep. 12. Students and staff participated in events and

trainings on the importance of self-awareness and self-management. Mustangs also celebrated "Start with Hello" Week, a district initiative that promotes inclusivity, connectivity, and a positive school community. Our Mustangs are learning every day how to be more resilient, connected, and positive. We thank you for your continued support in these efforts!

## UPCOMING DATES

## GAINING STEAM

Ms. Conti's class has been hard at work exploring STEAM (Science, Technology, Engineering, Arts, and Math) through four different experiments! Here are a few snapshots of their projects: Bike Safety Experiment, Magnetic Force, Chemical Reactions, and Balloon Rockets! Awesome job, Mustangs!

## TICKLING YOUR FUNNY BONE

School Resource Officer Jones showed off his funny bone by posing with the Media Center's newest addition! Our skeleton's name changes every week, and this week he was "Officer Bones". We like to have fun here at Magnolia School!
